Headlice

The school has had a number of reports of headlice in our school community. Parents need to be aware students need to have headlice treated before they are to return or attend school.

Treatment of headlice includes removing eggs and lice from not only hair but all bedding, cushions, hair brushes and anywhere that the child has had contact. It is advisable for all the family to be treated as well. Please make sure your child's school hat is washed regularly. The school policy is children are not to share hats
